iHub Drishti Foundation (iHub Drishti) is a Section-8, Not-for-profit Company, promoted by and at the Indian Institute of Technology Jodhpur under a National Mission on Interdisciplinary Cyber Physical Systems (NM-ICPS) of the Government of India. iHub Drishti is a Technology Innovation Hub focused around “Computer Vision, Augmented Reality and Virtual Reality.”

iHub Drishti Foundation invites applications from Indian Nationals possessing an excellent academic background and relevant experience for the post of:

Job Title: UI/UX Designer (AR VR Application)

Position Overview:

We are seeking a talented and innovative AR UI/UX Designer to join our dynamic team and commit to his work. In this role, you will be responsible for creating engaging and intuitive user interfaces for our augmented reality applications. Your primary focus will be on user experience design, ideating interactions for the application, and employing critical design thinking to deliver solutions that are both functional and aesthetically pleasing. You will play a key role in the entire development process, from conceptualization to implementation, ensuring a seamless and user-centered design workflow.

Key Responsibilities:

1. **User Experience Design:** Develop and refine user personas, conduct user research, and create user journey maps to understand and address user needs effectively.
2. **Interaction Design:** Ideate and prototype interaction models for AR applications, focusing on usability, accessibility, and engagement.
3. **Visual Design:** Create visually compelling interface designs that complement the AR experience, using wireframes, mockups, and prototypes.
4. **Critical Design Thinking:** Apply critical thinking to challenge and improve existing user interfaces, ensuring that design decisions are based on sound user experience principles.
5. **Collaboration:** Work closely with cross-functional teams, including developers, product managers, and other designers, to ensure a cohesive and integrated product.
6. **User Testing:** Conduct user testing sessions, gather feedback, and iterate on designs to enhance user satisfaction and usability.
7. **Workflow Development:** Establish and maintain design workflows and best practices for AR UI/UX, ensuring efficiency and consistency across projects.
8. **Staying Current:** Keep up-to-date with the latest trends, techniques, and technologies in AR design and UX/UI best practices.
9. **Color Psychology:** Apply knowledge of color psychology to create designs that evoke the desired emotional responses and user behaviors.
10. Any other tasks assigned by the management.
